SKILLS

- Languages** : Java, Python, R, HTML, CSS
- Data Bases** : SQL, MongoDB, Hive, HBase, Pig
- Frameworks** : React.js, Node.js, Express.js, Hadoop
- Tools** : Docker, Git, GitHub, Postman, Jenkins, Excel, Tableau
- Technical Skills** : Data Structures and Algorithms, Data Analysis
- Soft Skills** : Innovation, Versatility, Evaluation

EXPERIENCE

- NPTEL | Cloud Computing** Jul 2024 - Oct2024
 - Gained in-depth knowledge of cloud architecture, virtualization, and deployment models (IaaS, PaaS, SaaS).
 - Explored cloud platforms such as AWS and Google Cloud, learning storage, computing, and security services.
 - Created and deployed a scalable cloud-based application utilizing serverless computing and containerization.
- Board Infinity | Data Structures and Algorithms** Jun 2024 - Jul 2024
 - Learned and implemented core data structures like arrays, linked lists, stacks, queues, trees, and graphs.
 - Developed efficient algorithms to solve real-world problems using Java/C++.
 - Applied data structures knowledge in building a Library Management System, integrating search, issue, and return functionalities.

PROJECTS

- FoodDel Website** Apr 2025
 - Developed a full-stack food ordering platform enabling users to browse menus, place orders, and manage carts, improving order completion rates by 30%.
 - Integrated secure payment processing with Stripe to handle transactions, ensuring smooth and secure payment experiences for over 500 users.
 - Implemented RESTful API endpoints with Node.js and Express.js, streamlining backend operations for 1,000+ customer interactions per day.
 - Optimized front-end performance with React.js and CSS, reducing page load time by 25% and ensuring a fast, responsive user interface.
 - Developed an admin panel for managing orders, menu, and sales efficiently.
 - Tech:** JavaScript, React.js, Node.js, Express.js, MongoDB, Stripe, CSS, GitHub
- Netflix Dashboard** Nov 2024
 - Designed a dynamic Netflix dashboard in Tableau, visualizing 10+ data points including movie ratings, genres, and user engagement metrics.
 - Developed interactive filters and calculated fields to enable data-driven insights, allowing users to explore trends in movie popularity and watch time.
 - Optimized dashboard performance by using data blending and aggregation techniques to handle large datasets and ensure fast load times.
 - Implemented time-series analysis to track content performance, viewer habits, and seasonal trends, providing actionable insights for content strategy.
 - Tech:** Tableau, Data Visualization, Excel

CERTIFICATES

- Business Intelligence Using PowerBI by Skill Nation Sept 2024
- ChatGPT Advanced Data Analysis by Coursera Apr 2024
- Excel Skills for Business by Coursera May 2024

EDUCATION

- Lovely Professional University** Punjab, India Since Aug 2022
Bachelor of Technology in Computer Science and Engineering - CGPA: 7.41
- Sri Chaitanya Junior College** Vizag, Andhra Pradesh Sep 2020 – May 2022
Intermediate - Percentage: 92.9%
- Suresh High School** Vizag, Andhra Pradesh Jun 2019 – Jun 2020
Secondary Education - CGPA: 10
